

How to Shut Down the Revorvia Flow PC11

Revorvia Flow PC11 for
Revorvia Press PC1120

Version 1.0

Overview

This exercise will demonstrate two methods for shutting down the Revoria Flow PC11 application. These methods are useful for troubleshooting when resolving a problem. The procedures outlined below are not in order and should be completed as two individual tasks.

Objective

By the end of this exercise users will be able to:

- Perform Shut Down procedure for Revoria Flow PC11
- Perform Shut Down procedure for the Windows Operating System

Shut Down procedure for Revoria Flow PC11

1. On the right side of your PrintStation, select **System Control**.

2. Go to **PrintServer**, then select **Shut Down Server**.

3. A warning screen will appear, to continue click **OK**.

4. Revoria Flow PC11 will now proceed to shut down.

Congratulations you have now completed this exercise.

Shut Down procedure for Windows Operating System

1. Open Revoria Flow PC11 through Remote Desktop or access directly to the physical machine.
2. Select the **Windows Start** button, hover the cursor over **FUJIFILM Business Innovation** folder, click to expand it.
3. Select **ShutDown-Windows**.

4. The Windows system of Revoria Flow PC11 will proceed to shut down.

Congratulations you have now completed this exercise.
