On June 1, Microsoft[®] announced Windows[®] 10 can be reserved via the Windows[®] auto update feature. Customers may notice a new icon that will display “Get Windows 10 notice”.

Fuji Xerox offers a wide variety of print drivers, scan drivers, and software, for the newest operating system from Microsoft – Windows[®] 10. The products listed within this document are confirmed to have planned Fuji Xerox driver software support for Windows[®] 10.

Customers who are unable to find an available model specific print driver for Windows® 10 or Windows® 8.1 will be able to use the MMD2. Please note that your Fuji Xerox product must support PCL.

Fiery Products

Microsoft Windows® 10 is not currently supported with Windows-based EFI Fiery Print Servers. Do NOT upgrade the Fiery Server to Windows® 10. EFI will provide additional information in the near future on what (if any) action should be taken.
